The State of Utah and its political subdivisions reserve the right to make further acknowledgments and notices of acknowledgment with regard to road segments that traverse land owned by other entities, including the United States of America, through one or more of its agencies.

A printed copy of a map showing the location of the road in said county is appended hereto as “Attachment 1,” a printed copy of representative photos of the road is appended hereto as “Attachment 2,” a printed copy of a description of the beginning and ending points of the entire road together with a list of Townships, Ranges and Sections that may be traversed by the road in said county is appended hereto as “Attachment 3,” and a printed copy of the Road Centerline Description Cover Page(s) is appended hereto as “Attachment 4.” The Appendices listed in “Attachment 4” that contain the actual road centerline descriptions are incorporated herein by reference. My family has held grazing allotments in the area since 1954. When I first used and observed the road in the early 1960s, it followed the same route as in 2007 when I last observed it. Attached is a Kane County map showing Old Highway 89/The Seeps Road. To the best of my knowledge and based upon my use of and familiarity with this road and the land it traverses, the location and route of the road are correctly illustrated on the attached map. The County also identifies this road according to the road number listed above.

3. I have observed that the road has been open to the public for all to use, to come and go as they pleased, since at least as early as the early 1960s and continuing through 1976 to the present. Throughout this time period I have observed travel on the road by various means including, automobiles, horses, pickup trucks, ATVs, jeeps, cattle trucks and Kane County road equipment. 4. Throughout the time period from 1954 to the present, I have used the road myself for travel in and through the area, livestock operations, farming, wood gathering, hunting, sight seeing.

5. Throughout the time period described in the previous paragraph, I have observed vehicles using the road at various times for the uses described in the previous paragraph, plus utility access, residential access, mining, oil and gas exploration and prospecting for minerals.

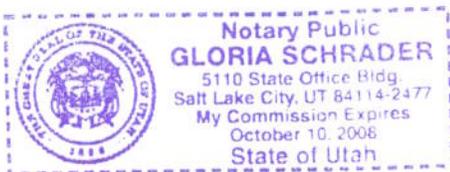

6. It is also the reputation in the community that this road has been open to the public for all to use, to come and go as they pleased, since at least the late 1800s and continuing through 1976 to the present, for the uses described in the previous paragraphs. The road was used by the early settlers.

7. Prior to 1976, I observed Kane County road crews performing maintenance and construction activities on the road, including installation and repair work on culverts and cattle guards. I also observed the graded surface of the road and other evidence of construction and maintenance such as berms.

State Geographic Information Database (SGID) Road Identification Number: RD130367.

Road-Segment Number: 002

Road-Segment Length: 0.5 miles more or less.

Believed owner of the land underlying this road-segment is: Bureau of Land Management.

The following description is based upon the geographic coordinate system using the NAD83 Datum. The source is GPS mapping grade data as indicated in the metadata and/or the transportation data model of the State of Utah Geographic Information Database (SGID).

The road-segment itself is the monument that is identified by its physical presence on the land. The location of said physical presence is closely approximated by mapping grade Global Positioning System (GPS) data. Said data are checked against the corresponding gray-scale 1-meter Digital Orthophoto Quadrangles published by the United States Geological Survey (USGS) to verify a reasonable degree of accuracy. In circumstances where accurate satellite signal acquisition is not possible, such as deep, narrow canyons or under a canopy of dense foliage, or where very sharp curves in the road make accuracy questionable, such portions of the road were digitized from the corresponding gray-scale 1-meter Digital Orthophoto Quadrangles published by the United States Geological Survey (USGS).

This road-segment may traverse:

Township 43 South Range 4.5 West, Section(s) 27, Salt Lake Base & Meridian

Road-Segment Length: 0.57 miles more or less.

Believed owner of the land underlying this road-segment is: Bureau of Land Management.

The following description is based upon the geographic coordinate system using the NAD83 Datum. The source is GPS mapping grade data as indicated in the metadata and/or the transportation data model of the State of Utah Geographic Information Database (SGID).

The road-segment itself is the monument that is identified by its physical presence on the land. The location of said physical presence is closely approximated by mapping grade Global Positioning System (GPS) data. Said data are checked against the corresponding gray-scale 1-meter Digital Orthophoto Quadrangles published by the United States Geological Survey (USGS) to verify a reasonable degree of accuracy. In circumstances where accurate satellite signal acquisition is not possible, such as deep, narrow canyons or under a canopy of dense foliage, or where very sharp curves in the road make accuracy questionable, such portions of the road were digitized from the corresponding gray-scale 1-meter Digital Orthophoto Quadrangles published by the United States Geological Survey (USGS).
